---

**Programming Languages:** JavaScript | TypeScript | Python | Dart

**Technologies:** Next.js | React | Tailwind CSS | TanStack/React Query | Zustand | Redux | MySQL | Flutter | React Native | HTML5 | CSS3 | Git | GitHub | Node.js

**Languages:** Portuguese (Native) | English (Advanced, C2 Proficient) | French (Basic)

## EXPERIENCE

---

### Mid-Level Front-End Developer

December 2023 - Present

ODEEN Intelligence for Security - Mogi das Cruzes, São Paulo, Brazil

- Create and maintain front-end features using Next.js, React, TypeScript, Tailwind CSS, including UI component development and API data integration.
- Developed a project integrating security cameras and other equipment in high-risk areas, utilizing real-time alerts and remote commands via the internet and radio signals. This technology was adopted by major Brazilian telecommunications companies.

### Junior Front-End Developer

January 2022 – December 2023

ODEEN Intelligence for Security - Mogi das Cruzes, São Paulo, Brazil

- Optimized the performance of the internal system by implementing more efficient state management using Zustand and TanStack Query, reducing unnecessary re-renders.
- Revamped the internal system's front end by replacing outdated components that used Styled Components with modern versions utilizing Tailwind CSS and implementing a minimalist and lightweight design based on Shadcn/UI.

### Human Resources Analyst

May 2015 – April 2021

Autokiniton (Tower International) - Arujá, São Paulo, Brazil

- Managed payroll processing, onboarding, offboarding, and HR documentation.
- Maintained time clock systems and assisted employees with HR-related inquiries.

### English Teacher

January 2012 – December 2014

Skill Idiomas - Arujá, São Paulo, Brazil

- Taught English language skills to students of various levels, focusing on grammar, vocabulary, reading, writing, and speaking. Developed lesson plans and activities to engage students and improve their language proficiency.
